

THOZHIL PLATFORM – REVAMP TASK DOCUMENT (DETAILED)

AI-Integrated Career, Learning & Recruitment Ecosystem

1. PROJECT OVERVIEW

Thozhil will be transformed into an end-to-end AI-powered career ecosystem combining:

- ✓ AI-based Interview Simulation
- ✓ Gig-based LMS & Skill Marketplace
- ✓ Premium Internships & Verified Opportunities
- ✓ Offline Courses & Social Media Campus Presence
- ✓ Integrated Ads, Mobile App, and Automation
- ✓ Campus Connect + College Monitoring Dashboards
- ✓ Recruiter ATS, Skill Mapping, and Hiring Automation
- ✓ Smart Analytics for Students, Colleges & Employers
- ✓ Additional Innovative Features for Global Scalability

2. CORE MODULES & TASK LIST

2.1 USER MANAGEMENT & AUTHENTICATION

Tasks

- Migrate to secure OAuth-based login (Google, Phone OTP, Email).
- Role-based access creation (Student, College Admin, Recruiter, Mentor, Admin).
- Improve profile onboarding flow with progressive data capturing.
- Implement AI-driven profile completeness scoring.
- Add parental/guardian login option for student tracking (optional).

2.2 AI-BASED INTERVIEW SYSTEM

Features

- AI video interview with camera-based response capture.
- Real-time sentiment analysis, tone, clarity, confidence scoring.
- Technical interview Q&A based on job role.
- Instant feedback & improvement suggestions.
- Interview ranking and report sharing to recruiters.
- Interview question bank auto-generated using job description.

Tasks

- Build microservice for interview generation (LLM-based).
- Integrate video recording + WebRTC + transcript engine.
- AI scoring model pipeline (skills, communication, reasoning).
- Dashboard for students and recruiters to view results.
- API integration with job application workflow.

2.3 GIG-BASED LMS SYSTEM

Features

- Learn & Earn model:
Students complete micro-tasks (e.g., design, tagging, writing).
- LMS with video, quizzes, assignments, AI auto-evaluation.
- Skill badges, on-chain certificates (optional).
- Marketplace for student gig tasks from startups.
- Peer-to-peer tutoring & mentoring.

Tasks

- LMS course creation panel.
- Gig marketplace backend with wallet integration.
- AI quiz evaluation engine.
- Gamified UI with coins, levels, badges.
- Integration with Thozhil job profile.

2.4 PREMIUM INTERNSHIPS MODULE

Features

- Internships from verified companies with:
 - Stipend guarantee
 - Company verification
 - AI skill-match
- Resume fast-forward service.
- Premium screening using AI interviews.

Tasks

- Internship posting UI for companies.
- Verification workflow.
- Subscription/paywall integration (Razorpay).
- Automated matching engine.

2.5 OFFLINE COURSES + CAMPUS SOCIAL MEDIA SYSTEM

Features

- Colleges can list offline courses & workshops.
- Daily campus updates posted by institutions (photos, events).
- Student engagement like Instagram feed.
- College branding pages.

Tasks

- Build content posting module.
- Moderation module using AI content filter.
- College-based feed UI + geolocation tagging.
- Integration with student profiles.

2.6 ADVERTISEMENT MANAGEMENT MODULE

Features

- Banner ads, employer sponsored listings, featured candidate ads.
- Targeting: location, skill, college, industry.
- CPM/CPC tracking dashboard.

Tasks

- Ad creation panel
- Payment gateway integration
- Analytics module
- Auto-review using AI moderation

2.7 MOBILE APPLICATION (ANDROID + IOS)

Core Modules

- Job search & apply
- AI interview module
- LMS + Gigs
- Resume builder
- Social media feed
- Campus connect
- Notifications & alerts
- Offline mode for courses

Tasks

- React Native/Flutter application development.
- Push notification system (Firebase).
- App performance optimization.
- App Store Play Store deployment.

2.8 CAMPUS CONNECT & COLLEGE MONITORING

Features

- College dashboard to track student:
 - Course progress
 - Job applications
 - Interview results
 - Attendance tracking (optional QR-based)
- Placement officer automation
- Weekly performance reports
- Leaderboards & competitions

Tasks

- College onboarding flow
- Student mapping to colleges
- Data analytics dashboard
- Bulk student upload + API for integration
- KPIs: placement %, attendance %, skill index

2.9 STUDENT MONITORING SYSTEM

Features

- Daily/weekly activity tracking
- AI career path recommendations
- Mood tracking using psychology-based model
- Watch-time analytics (LMS)
- Personalized reminders
- Parent/Guardian report module

Tasks

- Activity logger
- Analytics engine
- Mentor dashboard
- Parent login

2.10 RECRUITER ATS & HIRING AUTOMATION

Features

- Automatic candidate screening
- AI shortlisting based on job description
- Applicant ranking
- Interview scheduling automation
- Company analytics dashboard

Tasks

- ATS backend
- Resume parser AI module
- Matching engine
- Company admin UI

2.11 PAYMENT & SUBSCRIPTION SYSTEM

Features

- Premium internships subscription
- LMS paid courses
- Advertisements
- College packages
- Recruiter packages
- Student premium AI tools

Tasks

- Razor pay full integration
- Wallet system
- Invoice & GST module
- Refund management

2.12 SUPPORT, HELPDESK & AUTOMATION

Features

- AI chatbot for platform help
- Ticketing system
- WhatsApp API updates & notifications
- Bulk communication tools

Tasks

- Build ticketing backend
- Train AI support modules
- Integrate messaging API

2.13 ASSESMENT SYSTEM

- **Technical assessment**
(for roles like developer, QA, cloud engineer, etc.)
- **Student skill assessment**
(for colleges — aptitude, communication, technical, analytics)
- **AI interview assessment**
(scoring framework, question bank, evaluation metrics)
- **LMS course assessment**
(quizzes, assignments, evaluation rubrics)

- **Company candidate assessment**
(resume screening, test modules, MCQs, coding tasks)
- **Platform assessment module**
(for Thozhil — assessment system features + tasks)
- **Employee performance assessment**
(KRA/KPI based)
- **General aptitude test**
(quantitative, reasoning, English)
